A98 now available in Latin America through reseller agreement with HQS International and Trusted Security Solutions, Inc.

CHARLOTTE, North Carolina -- Trusted Security Solutions has signed a reseller agreement with HQS International to remarket the A98 into Latin America. According to TSS president Dennis 'Abe' Abraham, "Latin America offers exciting opportunities for the A98 and I am delighted that HQS will be reselling the A98 to financial institutions and networks throughout Latin America."

HQS president Joseph Handschu is enthusiastic over the A98 and thanks to his many years of industry experience with IBM Ecuador and SDM International, clearly understands the market opportunity. According to Handschu, "the A98 fits exactly within the needs of the Latin American Financial Industry and ATM environments, not only to fulfill the immediate VISA requirements, but also to provide a cost effective and simple migration to remote keying of ATMs. Every prospect we have approached is looking for something that goes beyond the traditional solution, for us the A98 is exactly that"

About Trusted Security Solutions, Inc.

Trusted Security Solutions, Inc., founded in 1998 and located near Charlotte, NC, is the industry leader in ATM key management solutions with the A98 as its signature product. It is a privately held corporation formed jointly by Abraham & Associates, Inc. of Concord, NC and J.S. Walker and Co., Inc. of Charlotte, NC. The A98 is in wide use and is used to key approximately 200,000 ATMs
